

PROVIDING COMPREHENSIVE SOLUTIONS TO REDUCE OPERATING EXPENSES ACROSS ALL UTILITIES

OUR SERVICES

■ Efficiency

Evaluate your energy usage to identify ways to optimize consumption, lower demand and provide reliable clean power that will save money for years.

■ Utility Bill Audit

Review each line of your utility invoices to identify billing errors, discrepancies, and unnecessary charges.

■ Merchant Service Audit

Analyze your monthly merchant statement's fee structure, breaking down each charge to identify surcharges, inflated fees and errors that may be present.

■ Telecommunications Bill Audit

Provide a line-by-line review of your local, long-distance, internet, wireless, data, and cellular bills to identify overcharges.

■ Carbon Free Power

Emission-free energy credits (EFECs) can help you minimize environmental impact and reach your company's ESG and Carbon Neutrality goals.

■ Waste/Trash Bill Audit

Perform off-site evaluations of waste expenses to ensure 100% cost-efficiency and negotiate the lowest possible rates available.

■ City Aggregation

Provide electric and natural gas opt-out services for residential and commercial accounts to meet the goals of the community while providing budget certainty with renewable options.

■ Procurement

Negotiate the lowest rate with suppliers to reduce the cost of electricity and natural gas.
